

The Post-Abortion Review

Elliot Institute, PO Box 7348, Springfield, IL 62791

A Powerful Resource for Pro-Life Activists

Stay Informed with the Leading Publication on Post-Abortion Issues

We are documenting the truth about abortion's impact on women, men, siblings and society. *The Post-Abortion Review* is the only publication of its kind devoted to covering issues such as:

- Summaries of the latest research on abortion risks
- First-hand testimonies from women who have experienced the pain of abortion
- Critiques of pro-abortion propaganda

The truth will defeat the pro-abortionist's claim that abortion helps women. This, in turn, will lead the public to question why we allow a procedure that is so harmful to women, men, families, and society.

"Powerful! If only more people would read it, abortion would end!"

"I'm so excited about your publication. I've gone through an abortion myself, just two years ago. This is a much-needed area of research."

"I am realizing more and more (from personal experience) how important your work is. . . . This could be an important bridge to saving the unborn. It certainly is already helping the aborted women—I can testify to that!"

By documenting how abortionists injure the very women they claim help, *The Post-Abortion Review* exposes the abortion industry's Achilles heel. You can help by supporting our research, staying informed, and educating others.
